series P

These are wire strain gauges utilizing a transparent plastic backing impregnated with polyester resin. The gauge length is available in 3 ranges of 60, 90 and 120mm, so it is suited to the measurement of concrete strain. Since the backing is transparent, the bonding position can easily be checked in the installation works.

Single element

0°/90° 2-element stacked Rosette

0°/45°/90° 3-element stacked Rosette

Example of type number designation.

Integral leadwire is available only for single element PL, but not for 2-element PLC and 3-element PLR.

Single-element	Each package contains 10 gauges.

PLR-60-11	60	1	74	74	120

series PF

These are foil strain gauges utilizing a polyester resin backing which is the same as the P series. The gauge length is available in 3 ranges of 10, 20 and 30mm, so it is suited mainly to strain measurement on concrete or mortar. The backing is transparent and the installation is easy.
