

WUS - Wheel Unit Sensor

Tyre Pressure & Temperature sensor

Range	0 to 3.5 bar relative pressure
Pressure accuracy	± 13.7 mbar
Temperature measurement range	-40°C to +125°C
Temperature accuracy	± 2°C
Max duration in extended temperature range	1 hour
Max excursions in extended temperature range	150°C – peak up to 170°C
Transmission mode	Every 16 seconds
- Parking mode	Every second
- Driving mode	Acceleration (> than 20km/h)
Shut ON	or LF Trigger
Shut OFF	Automatically after a stop of more than 7 min
Transmit frequency	or LF Trigger
Power supply	434.92 MHz
Battery life time	CR 2450 HX
	1 race season

Mechanical features:

Valves	Aluminum multi angle valve Suitable for 8.3 mm valve and 11.3 mm valve
Potting	Polyurethane
Antenna	Internal antenna
Weight	39 g
